SKILLS

React, Redux, Ruby on Rails, React Native, HTML, CSS/SCSS, JavaScript, PostgreSQL, SQLite, JSX, jQuery, Webpack, Git, RESTful APIs, RSpec, TDD, JBuilder

WORK SAMPLES

AtSea – *Ruby, Rails, React, Redux - A nautically themed Etsy*

[Live Site](#) | [Github](#)

- Implemented a shopping cart that persists across user sessions by leveraging Rails ActiveRecord relations.
- Utilized Redux architecture to customize and normalize state shape resulting in predictable state management.
- Combined PostgreSQL database with Cloudinary services allowing users to upload and edit product photos
- Maintained modular code by adhering to React Component best practices .
- Used CSS FlexBox to create dynamic resizing layout and a seamless user experience.

Beagle Jump! - *JavaScript, HTML5, Canvas, Audio, CSS - A game about finding home.*

[Live Site](#) | [Github](#)

- Created a sprite sheet and utilized HTML Canvas to fully animate multiple sprites with integrated keystroke events.
- Designed and implemented an in-game gravity system that manipulates a sprite's velocity in order to render realistic jumping physics.
- Developed collision detection algorithm for a variety of in-game characters as they move across the screen and collide.

ROVE - *React Native, Redux, Google Map APIs - A mobile app that creates an intuitive itinerary.*

[Live Site](#) | [Github](#)

- Created reusable styling components allowing for efficient, stylistically consistent rendering.
- Wrote custom swipe detection methods to enable intuitive app-wide navigation.
- Leveraged unique Google API calls to rank itinerary suggestions and return randomized results to create a customized user experience.

EXPERIENCE

General Manager

A Girl And Your Dog

Mar 2015 - Jan 2018

- Maintained a social media presence for the company with daily postings with unique hashtags for each client resulting in an 15% positive increase in client interactions.
- Interviewed and onboarded more than 5+ new team members for a variety of different positions.
- Designed and implemented the all-day care program, managing the daily pick-ups and drop-offs of sixteen to twenty dogs at a time.

Customer Service Manager

Cerebellum Corporation (Library Video Company)

July 2014 - February 2015

- Designed and implemented a call logging system to efficiently process and categorize all incoming customer calls.
- Managed and trained a team of 3 customer service agents to ensure ongoing top quality service for every customer.

EDUCATION

App Academy (Spring 2018)

- 1000-hour immersive full-stack web development intensive with <3% acceptance rate.
- Focus on design patterns and programming best practices.

Pace University @ New York (Spring 2013)

Bachelor of Science - Criminal Justice
